

MADE BY MORGEN

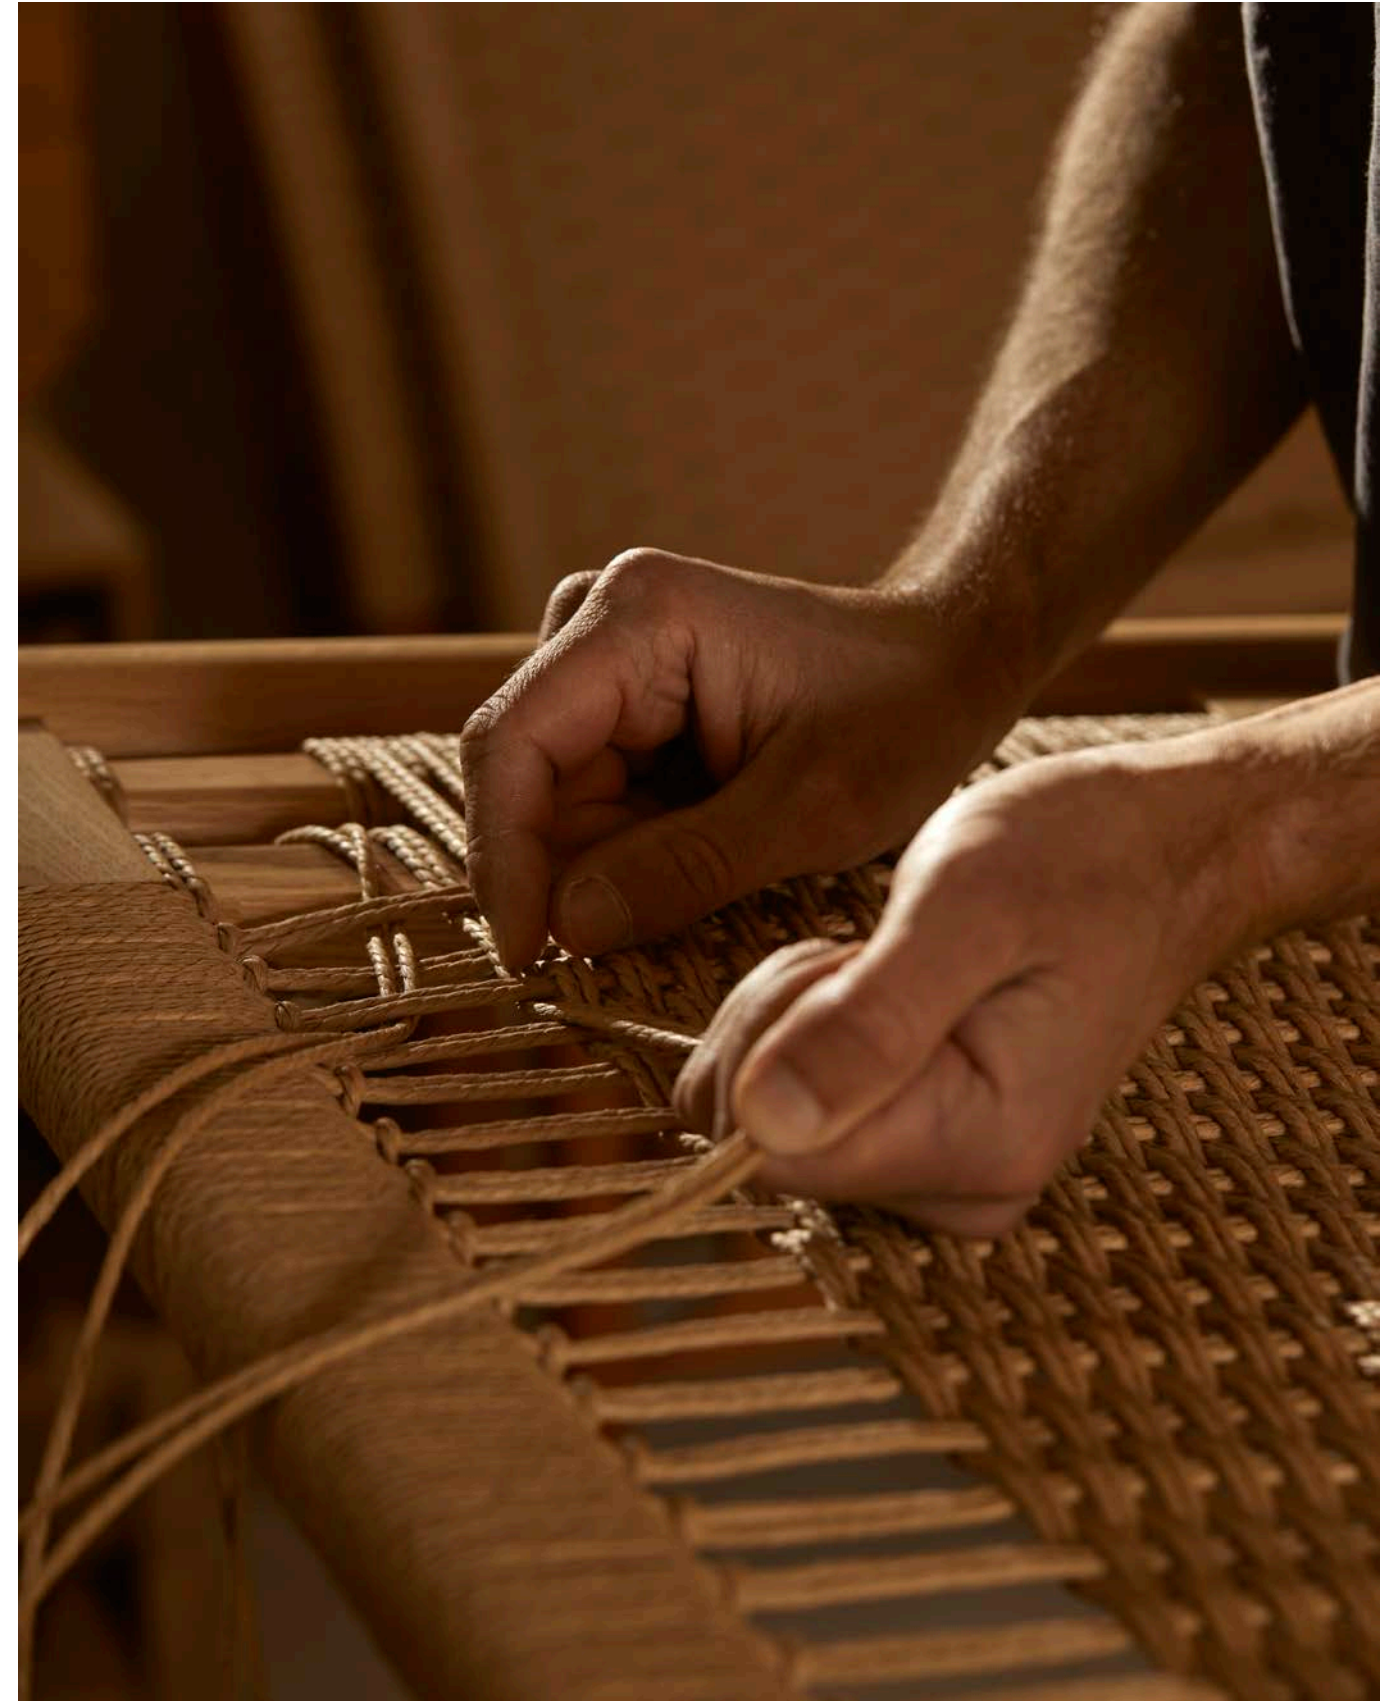

Crafted Collection – 2023

MADE BY MORGEN

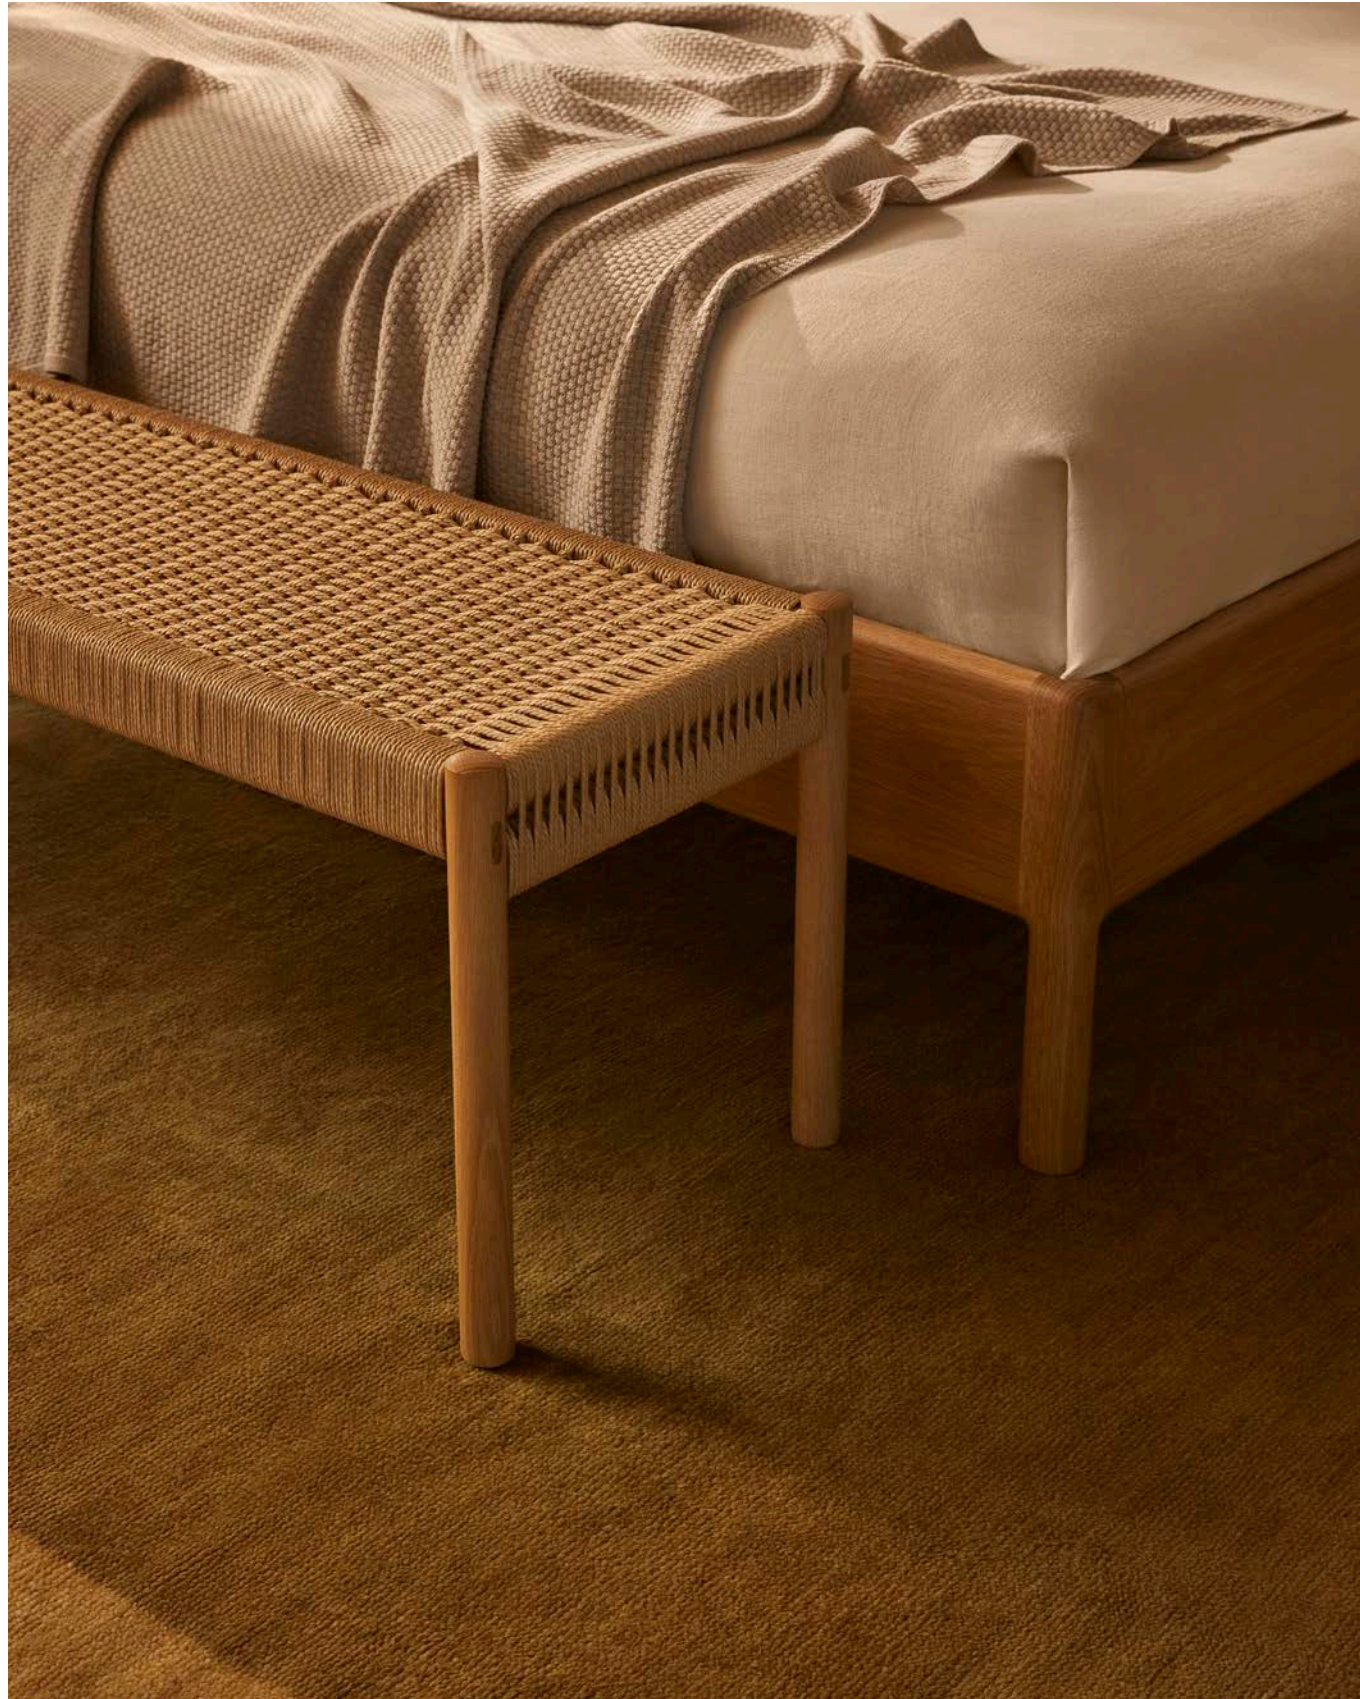

Made by Morgen's 'Crafted Collection' is a new range of bespoke furniture that exudes elegance, quality, and craftsmanship. It includes a variety of pieces, such as beds, tables, seating, and storage, that highlight the simplicity and sophistication of Scandinavian design.

A number of pieces utilize the traditional technique of woven Danish cord, providing the furniture with a warm and textural feel. Made by Morgen's design philosophy of exposed joinery and subtle detailing is evident in the use of solid timber for the construction of the furniture.

The founder of Made by Morgen, Nick McDonald, comes from a commercial building background and witnessed how modern building standards impacted every aspect of life. He wanted to create beautiful spaces and objects that inspire and unite people. He drew inspiration from skilled and hardworking individuals, and Scandinavian and mid-century furniture designs. This inspired the guiding philosophy of “make it simple, make it well,” which underpins the entire collection.

Each piece in the collection features an understated design that emphasizes exceptional craftsmanship and subtle detailing. Made by Morgen believes in working with a select group of skilled craftsmen to create bespoke furniture that meets the unique needs of their customers. The company’s commitment to sustainable and ethical production practices ensures that each piece is not only beautiful but also made to last. By maintaining local and intimate relationships with providers and employing highly skilled craftspeople, Made by Morgen guarantees a quality in their work that meets their exacting standards.
